

FISHER FUNDS INVESTMENT SERIES

Product Disclosure Statement

Issued by Fisher Funds Management Limited
1 November 2022

This is a replacement Product Disclosure Statement (PDS) which replaces the PDS dated 25 March 2022

This document gives you important information about this investment to help you decide whether you want to invest. There is other useful information about this offer on companiesoffice.govt.nz/disclose. Fisher Funds Management Limited has prepared this document in accordance with the Financial Markets Conduct Act 2013. You can also seek advice from a financial adviser to help you to make an investment decision.

1 | KEY INFORMATION SUMMARY

What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Fisher Funds Management Limited ("Fisher Funds", "we" or "us") will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Fisher Funds and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

Fisher Funds Investment Series offers you a range of five funds 'the funds' to invest in. These investment options are summarised below. More information about the investment target and strategy for each investment option is provided in Section 3.

You can choose to invest in one or more of the funds below, as long as you meet the minimum investment and account balance requirements. More on those in Section 2.

Fund name	Fund description and investment objective	Risk indicator	Estimated annual fund charges (% of net asset value)
Fisher Funds CashPlus Fund	Aims to provide stable returns and reduce the potential of capital loss over the short to medium term by investing in New Zealand cash and New Zealand short term fixed interest assets.	<p>Lower risk Higher risk</p> <p>1 2 3 4 5 6 7</p> <p>Potentially lower returns Potentially higher returns</p>	0.69%
Fisher Funds New Zealand Fixed Income Trust	Aims to provide stable returns over the long term by investing in New Zealand fixed interest assets.	<p>Lower risk Higher risk</p> <p>1 2 3 4 5 6 7</p> <p>Potentially lower returns Potentially higher returns</p>	0.96%
Fisher Funds BondPlus Fund	Aims to provide stable returns over the long term by investing in international fixed interest assets.	<p>Lower risk Higher risk</p> <p>1 2 3 4 5 6 7</p> <p>Potentially lower returns Potentially higher returns</p>	1.20%
Fisher Funds Trans Tasman Equity Trust	Focuses on growth of your investment over the long term by investing in Australasian shares.	<p>Lower risk Higher risk</p> <p>1 2 3 4 5 6 7</p> <p>Potentially lower returns Potentially higher returns</p>	1.64%
Fisher Funds Global Fund	Focuses on growth of your investment over the long term by investing in international shares.	<p>Lower risk Higher risk</p> <p>1 2 3 4 5 6 7</p> <p>Potentially lower returns Potentially higher returns</p>	1.64%

See Section 4 for an explanation of the risk indicator and for information about other risks that are not included in the risk indicator. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at ipq.fisherfunds.co.nz/ffmf.

Who manages the Fisher Funds Investment Series?

Fisher Funds manages the funds. See Section 7 for more information about us.

How can you get your money out?

This is a flexible investment option and you can usually redeem (withdraw) some or all of your investment at any time. Below are more details about withdrawing your investment:

- » There's no charge for withdrawals
- » You'll need to complete a withdrawal form
- » There is currently a minimum withdrawal amount of \$500 per transaction
- » If you make a partial withdrawal you'll need to ensure you keep a minimum account balance of \$5,000 in each fund you are invested in (or \$1,000 if you invested in the BondPlus Fund, Trans Tasman Equity Trust, or Global Fund prior to 1 November 2005).

Section 2 provides more information on withdrawing your investment.

Your investment in these funds can be sold but there is no established market for trading these financial products. This means that you may not be able to find a buyer for your investment.

However because you can withdraw by simply completing a form there's no need to sell your investment to another person unless you wish to.

How will your investment be taxed?

Each fund is a portfolio investment entity (PIE). The amount of tax you pay in respect of a PIE is based on your prescribed investor rate (PIR). This can be 0%, 10.5%, 17.5% or 28%. See Section 6 of the PDS (What taxes will you pay?) on page 11 for more information.

Where can you find more key information?

Fisher Funds is required to publish quarterly updates for each fund. The updates show the returns, and the total fees actually charged to investors during the previous year. The latest fund updates are available at fisherfunds.co.nz/resources. The manager will also give you copies of those documents on request.

2 | HOW DOES THIS INVESTMENT WORK?

Fisher Funds Investment Series is distributed predominantly through third party financial advisers. Fees associated with investing in the Fisher Funds Investment Series funds through a third party adviser may vary, see your financial adviser for details.

What are the benefits?

Fisher Funds Investment Series has some great features that we think you'll find attractive:

- » **Investing is all we do:** At Fisher Funds we only do investments. We're not distracted by trying to manage other products or services. You'll have the full attention of our professional investment team with over 300 years' combined experience, who'll make the investment decisions on your behalf.
- » **Flexibility:** You have the ability to add to, withdraw from, or change your investment at any time.
- » **More options:** Pooling your savings with others gives you access to more investment opportunities, that are generally available only to those people with significant buying power.

How does it work?

When you invest in Fisher Funds Investment Series, your money is used to buy units in your name in the fund or funds that you choose. More information on the funds can be found in Section 3.

- » Each unit you buy will have a price calculated each day based on the value of the fund's assets at the time
- » Changes in the value of the fund's assets (up or down) are reflected in the unit price

Each fund in the Fisher Funds Investment Series is a trust governed by a Governing Document between Fisher Funds and Trustees Executors Limited (the 'Supervisor'). Your investments are held by a custodian appointed by the Supervisor, who is independent from Fisher Funds. Each fund is accounted for separately so assets in one fund can't be used to meet the liabilities of another.

The funds in the Fisher Funds Investment Series do not currently make distributions. Any income or capital gains are included in the unit price of the funds.

Responsible investment

Responsible investing is deeply ingrained into our research process. We won't invest in manufacturers of tobacco, weapons that cause indiscriminate and disproportionate harm, including nuclear armaments, and companies where their core business includes the ownership of reserves of coal, oil or gas and deriving revenue from the upstream activities associated with these reserves. We won't invest in companies where their core business includes operating gambling establishments, or the manufacture of specialised hardware or software used exclusively for gambling. We also ensure the companies we invest in meet basic

standards of good corporate conduct. We supplement our own research with insights from leading global researcher MSCI.

Our Responsible Investment Policy is constantly evolving and is therefore subject to change. The latest version is available at fisherfunds.co.nz.

Making investments

It's easy to invest in Fisher Funds Investment Series and it's open to most people including:

- » Individuals over the age of 18 (including joint investors)
- » Trusts or Partnerships
- » Estates
- » Charities
- » Companies
- » Incorporated societies or associations

You can start your Fisher Funds Investment Series journey by completing the application form at the back of this document or simply give us a call for more information.

Fisher Funds Investment Series has minimum investment amounts which are (unless agreed otherwise):

- » Opening investment: an initial lump sum of \$5,000
- » Additional investments: \$1,000 or more (can be made at any time)
- » Regular investments: \$100 per month

You can invest anytime by making a lump sum or regular contribution by direct credit transfer or direct debit. Making regular contributions to your investment can help you reach the financial success you dream of.

Withdrawing your investments

Fisher Funds Investment Series gives you the flexibility to withdraw some or all of your investment generally at any time, without any charges.

How to make a withdrawal?

- » Simply complete a withdrawal form (you can download a form from fisherfunds.co.nz/resources)
 - » Partial withdrawals need to be \$500 or more per transaction
 - » Regular withdrawals can be set up on a monthly or quarterly basis and must be a minimum of \$100 per transaction
 - » For partial and regular withdrawals, you must leave a minimum account balance of \$5,000 in each fund you are invested in (or \$1,000 if you were invested in the BondPlus Fund, Trans Tasman Equity Trust, or Global Fund prior to 1 November 2005) or we may withdraw your remaining investment in the relevant fund(s) and pay it to you

What happens when you make a withdrawal?

- » If your withdrawal request form is received by 3pm on any business day, and is fully completed and accompanied by all necessary documentation in the correct form, it will be processed at the unit price calculated as at the close of the markets on that day (or the next business day if received after 3pm). For funds that only invest in New Zealand or Australian assets this usually means your withdrawal will be processed on the following business day, and for funds that invest in international assets this usually takes 2 business days to process. In certain unusual circumstances withdrawals may take up to 10 business days to complete.
- » PIE tax associated with the withdrawal may be deducted from your account

- » We can suspend or defer payments of withdrawals in a fund in certain circumstances. Further information on suspensions and deferrals is set out in the 'Other Material Information' document on companiesoffice.govt.nz/disclose

How to switch between funds

Fisher Funds Investment Series offers you a range of funds to choose from, with the flexibility to switch your investment between funds at any time, usually without any charge. We may choose to charge a fee, for example in circumstances of an unreasonable number of switches in a short time.

Switching funds is easy; just complete an Investment Series Switch Form at fisherfunds.co.nz/resources.

3 | DESCRIPTION OF YOUR INVESTMENT OPTIONS

Fisher Funds Investment Series has a choice of five funds for you to invest in, with the flexibility of investing in any combination of funds. It's important to understand what your financial goals are, the timeframe you have and how much risk you're comfortable to take. Each fund has different risks and rewards and is designed to suit different types of investors. We'd suggest talking to one of our friendly financial advisers before you make any decision.

The Fisher Funds Investment Series investment options are detailed below and on the following pages.

To help make the investment jargon included in the descriptions a bit easier to understand, we've used the following terms.

Income assets – refers to lower risk investments such as cash and or fixed interest securities.

Growth assets – refers to higher risk investments such as Australasian and international shares and property.

The funds may hold derivatives (contracts that are valued based on the performance of other assets e.g. for currency hedging purposes in the funds that invest overseas), and alternative assets (such as investments in commodities), however there is no specific allocation to these investments. The funds can hold assets either directly or indirectly through other funds.

The Statement of Investment Policy and Objectives (SIPO) sets out the investment philosophy, strategies and objectives for the funds. We regularly review and update the SIPO (in consultation with the Supervisor) to take into account current market conditions. The current SIPO for the funds can be found free of charge on the Disclose Register at companiesoffice.govt.nz/disclose. Any material changes to the SIPO will be advised to you in the Fisher Funds Investment Series Annual Report.

Further information about the assets in the funds can be found in the fund updates at fisherfunds.co.nz/resources.

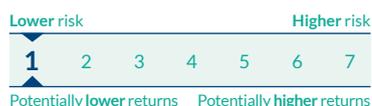

4 | WHAT ARE THE RISKS OF INVESTING?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

Risk indicators for each fund can be found in Section 3.

Risk indicator

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at ipq.fisherfunds.co.nz/ffmf.

Note that even the lowest category does not mean a risk-free investment.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years to 30 September 2022. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for each of the funds.

General investment risks

Some of the things that may cause the funds' values to move up and down, which affect the risk indicator, are:

- » **Investment returns risk** – different types of investments have different risks and perform differently at different times. For example, the return on growth assets tends to go up and down more than the returns from income assets. This means short term fluctuations in the value of a fund are common, especially for funds that invest mostly in growth assets like shares.
- » **Market risk** – investment market performance can be affected by economic conditions such as investor opinion, inflation, employment rates and interest rates (including negative interest rates). Political events, and environmental and technological issues also impact investment market performance.

- » **Currency risk** – investments in foreign assets are bought and sold with foreign currency, and the fund may hold foreign currencies directly. The value of the foreign assets and currency can change (up or down) when there are movements in the exchange rate between the New Zealand dollar and the foreign currency.
- » **Investment manager risk** – how we choose to allocate each fund's investments (and the investment decisions made by the managers of any underlying funds in which we invest) will affect that fund's returns. In particular, our investment style may result in our returns differing from any market index and from competing investments.
- » **Credit risk** – the issuer of a security, an institution that we deposit funds with, or a third party that provides a guarantee for either may not honour their obligations, fail to complete transactions, or may become insolvent. If this occurs you may not receive the full amount of your investment in that fund.
- » **Counterparty risk** – a party to an investment contract may not honour their obligations, or fail to complete a transaction, or may become insolvent. If this occurs in any of the investment contracts held by a fund, you may not receive the full amount of your investment in that fund.
- » **Interest rate risk** – fixed interest investments may become more or less valuable depending upon changes in interest rates. If market interest rates rise, existing fixed rate investments become less valuable because new fixed interest investments will pay the current, higher rate of interest, and vice versa when market interest rates fall. Interest rate risk is more applicable to funds that invest mostly in income assets such as fixed interest securities.
- » **Liquidity risk** – low liquidity can affect the ability of the fund to make payments when needed (such as meeting withdrawal requests), or you may receive a lesser amount than expected if the assets have to be sold quickly and there are few buyers.

Further information on risks and the steps we take to reduce their impact on the funds' investments are set out in the 'Other Material Information' document on companiesoffice.govt.nz/disclose.

5 | WHAT ARE THE FEES?

You will be charged fees for investing in Fisher Funds Investment Series. Fees are deducted from your investment and will reduce your returns. If Fisher Funds invests in other funds, those funds may also charge fees. The fees you pay will be charged in two ways:

- » **regular charges** (for example, annual fund charges). Small differences in these fees can have a big impact on your investment over the long term; and
- » **one-off fees** (for example, fees charged for investing or withdrawing from the fund or for other specific actions you take). Fisher Funds does not currently charge one-off fees.

The table below shows the charges for each fund including GST. The annual fund charges are a reasonable estimate of the annual fund charges that are likely to be charged in the future. See the Fisher Funds Investment Series 'Other Material Information' document at fisherfunds.co.nz/resources for more information on how the annual fund charges have been calculated.

Fund	Management Fees	Costs and expenses	Total estimated annual fund charges (% of net asset value)
Fisher Funds CashPlus Fund	0.51%	0.18%	0.69%
Fisher Funds New Zealand Fixed Income Trust	0.86%	0.10%	0.96%
Fisher Funds BondPlus Fund	1.07%	0.13%	1.20%
Fisher Funds Trans Tasman Equity Trust	1.52%	0.12%	1.64%
Fisher Funds Global Fund	1.52%	0.12%	1.64%

Description of the above fees

Annual fund charges:

Are made up of:

- » The management fee charged by Fisher Funds for providing investment management services to the funds
- » Costs and expenses incurred in relation to the funds for services such as accounting, custodian, unit pricing, audit services and include the Supervisor's fees.

Annual fund charges are:

- » Paid from the funds, or the underlying funds they may invest in

Individual action fees

You may be charged other fees by us on an individual basis for investor-specific decisions or actions, though this is rare. You may be charged a fee by your financial adviser. See the 'Other Material Information' document at fisherfunds.co.nz/resources for more information about those fees.

Example of how fees apply to an investor

Sarah invests \$10,000 in the Fisher Funds Trans Tasman Equity Trust. The starting value of her investment is

\$10,000. She is charged management and administration fees which work out to about \$164 (1.64% of \$10,000). These fees might be more or less if her account balance has increased or decreased over the year.

Estimated total fees for the first year

Individual action fees	Nil
Fund charges	\$164
Other charges	Nil
Total	\$164

See the latest fund update for an example of the actual returns and fees investors were charged over the past year.

This example applies only to the Fisher Funds Trans Tasman Equity Trust. If you are considering investing in other funds in the scheme, this example may not be representative of the actual fees you may be charged.

The fees can be changed

Our fees may change or new fees may be added – we'll let you know if they do. If we do make any changes to the fees, we'll make sure they are changed within the rules set by the Governing Document.

Fisher Funds must publish a fund update for each fund showing the fees actually charged during the most recent year. Fund updates, including past updates, are available at fisherfunds.co.nz/resources.

6 | WHAT TAXES WILL YOU PAY?

Each of the funds in the Fisher Funds Investment Series is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to fisherfunds.co.nz/faqs. If you are unsure of your PIR, we recommend you seek professional advice or contact the Inland Revenue Department. It is your responsibility to tell Fisher Funds your PIR when you invest or if your PIR changes. If you do not tell Fisher Funds, a default rate may be applied.

If the rate applied to your PIE income is lower than your correct PIR you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate

applied to your PIE income is higher than your PIR any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you by Inland Revenue.

Joint investors, companies and trusts may be taxed differently to individuals. For example, for a joint application we will use the highest PIR provided by the applicants. See under the heading 'Tax' in the 'Other Material Information' document at fisherfunds.co.nz/resources for more information on how your investment earnings are taxed. Or give us a call for more information on investment tax.
