### Notes to the Financial Statements

#### 1 About this report

#### (a) Reporting entity

The reporting entity is the Fisher Funds Premium Service Scheme ("the Scheme"). The Scheme is made up of five funds ("the Funds"):

- Fisher Funds Premium New Zealand Fund ("New Zealand Fund")
- Fisher Funds Premium Australian Fund ("Australian Fund")
- Fisher Funds Premium International Fund ("International Fund")
- · Fisher Funds Premium Property and Infrastructure Fund ("Property and Infrastructure Fund")
- Fisher Funds Premium Income Fund ("Income Fund")

The Funds are Portfolio Investment Entities ("PIEs"), meaning income is taxed in the hands of the unit holders. The Manager attributes the taxable income of the Funds to unit holders based on their holding of units and pays tax on their behalf at their Prescribed Investor Rate. Tax payments/credits are transacted by cancellation or issue of units.

The results, position and cash flows reported for the Scheme is a simple aggregation of the results, position and cash flows of the Funds that make up the Scheme. All investments made with the monies of a Fund shall be held by the Supervisor as the exclusive property of that Fund and will not be used to meet any liabilities of any other Fund. As part of this aggregation process, inter-fund transactions are eliminated and PIE tax is disclosed net at the Scheme level.

### (b) Stautory base

The Scheme is a reporting entity under the Financial Markets Conduct Act 2013 ("FMC Act") and is governed by the Governing Document. The Scheme is also registered as a Managed Investment Scheme in accordance with the Financial Markets Conduct Act 2013.

#### (c) Basis of preparation

The Scheme's financial statements have been prepared in accordance with New Zealand Generally Accepted Accounting Practice ("NZ GAAP") and the New Zealand equivalents to International Financial Reporting Standards ("NZ IFRS") as applicable to for-profit entities and International Financial Reporting Standards ("IFRS").

The financial statements have been prepared in accordance with the provisions of the Governing Document and the FMC Act.

All amounts are in New Zealand Dollars and have been rounded to the nearest one thousand dollars. The Scheme is domiciled and registered in New Zealand.

Investments are financial instruments measured at fair value though profit or loss. All other assets and liabilities are measured at amortised cost.

There are no new standards, amendments to standards or interpretations that are effective for the reporting period that have a material effect on the financial statements of the Scheme.

There are no new standards, amendments or interpretations that have been issued but are not yet effective that are expected to materially impact the Scheme's financial statements.

### (d) Change of comparatives

Certain items have been reclassified from the Scheme's prior year financial report to conform to the current year's presentation basis. The reclassifications relates to the re-presentation of the Supervisor as a related party (refer to note 4 for further information).

#### (e) Unit holders' Funds

Units issued by the funds provide the unit holders with the right to require redemption for cash at the value proportionate to the unit holders' share in each Fund's net asset value.

The units qualify as 'puttable instruments' and are classified as equity as they are identical. Any owner changes in equity are presented in the Statement of Changes in Unit Holders' Funds, whereas any non-owner changes in equity are presented in the income section of the Statements of Comprehensive Income.

#### (f) Material judgements

The material judgements in preparing these financial statements are the valuation of the Scheme's investments and categorisation of its assets and liabilities fair value hierarchy, which is described in Note 3.

### (g) Covid-19

The impact of COVID-19 on the Scheme's financial statements was considered and, other than the Scheme's performance during the year, there have been no other impacts on the Scheme's financial reporting.

### **Notes to the Financial Statements**

#### 2 Risl

The investment activities of the Funds come with financial risks. These risks are managed under the Scheme's Statement of Investment Policy and Objectives ("SIPO"), and are monitored by the Manager.

### (a) Market price, interest rate and currency risks

Market price risk is the risk of gains or losses from changes in the market price of investments. A variable of 20% is considered appropriate for market price risk sensitivity analysis based on historical price movements.

Interest rate risk is the risk of movements in interest rates. Surplus cash is held in interest bearing New Zealand and foreign bank accounts. The Funds are therefore exposed to the risk of gains or losses or changes in interest income from movements in both New Zealand and foreign interest rates. A variable of 1% was selected for interest rate risk as this is a reasonably possible movement based on historic trends and current market expectations.

Currency risk is the risk of gains or losses or changes in the New Zealand dollar value of income from changes in foreign exchange rates.

An analysis including the impact on unit holders' funds of the market price risk and direct interest rate risk from the investments of the Funds is set out in the tables below. Unit holders' funds is impacted by price movements by the same amount as profit after adjusting for the impact of PIE tax adjustments attributable to unit holders.

The Scheme is also exposed indirectly to interest rate risk and currency risk arising from its investment in PIE funds. These indirect risks are not considered in the analysis below.

### **Notes to the Financial Statements**

#### 2 Risk (continued)

### (b) Liquidity risk

Liquidity risk is the risk that the Scheme will experience difficulty in either realising assets or otherwise raising sufficient funds to satisfy commitments associated with investment liabilities and withdrawals by unit holders. Liquidity risk is managed by holding sufficient liquid investments to enable the Scheme to meet liabilities as they fall due and unit holder withdrawals when requested. Monies received from unit holder contributions may be used to offset withdrawals and the Manager may in certain circumstances suspend withdrawals.

The Manager manages liquidity risk by monitoring the Funds' portfolios and giving consideration to illiquid investments not readily and easily sold, to ensure there are sufficient liquid assets to cover outstanding liabilities of the Funds.

The Scheme manages its unit holders' funds as capital. All units in the each Fund carry the same rights, preferences and restrictions. The Supervisor may defer giving effect to a permitted withdrawal out of the Scheme if the Supervisor determines that having regard to the realisation of assets required in order to make the withdrawal or transfer or the occurrence or existence of any other circumstance or event relating to the Scheme or generally, earlier withdrawal or transfer would be imprudent or is impracticable.

### (c) Credit risk

Credit risk is the potential risk of financial loss resulting from the failure of counterparties to honour fully the terms and conditions of a contract with the Scheme. The Scheme minimises concentrations of credit risk by undertaking transactions with a number of counterparties on recognised and reputable exchanges. The Scheme could lose money if the issuer or guarantor of a fixed income security, or the counterparty to a derivatives contract, is unable or unwilling to make timely principal and/or interest payments, or to otherwise honour its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings. Financial instruments that subject the Scheme to credit risk consist primarily of cash and cash equivalents, fixed interest investments, swaps and forward foreign exchange contracts. The Manager has assessed the impact of non-performance risk on the financial instruments subject to credit risk and determined that no adjustment to the fair value is required. The Manager minimises credit risks to the Scheme by performing reviews of each counterparty. All transactions in listed securities are paid for on delivery according to standard settlement instructions.

PIE funds indirectly subject the Scheme to credit risk by investing in cash, fixed interest investments and forward foreign exchange contracts. The maximum exposure for the Scheme to credit risk is represented by the carrying value of these financial instruments. The Scheme's investment in PIE funds, due to the risk and reward profile of those investments, are considered to be similar to an equity holding and are therefore not included in the credit risk sensitivity analysis.

The table below sets out the equivalent Standard and Poor's short term credit rating for cash and cash equivalents, bank deposits at amortised cost, and long term credit ratings for debt securities, swaps and forward foreign exchange contracts at fair value through profit or loss held by the Scheme:

		New Ze	aland Fund	Austra	lian Fund	Internati	ional Fund	Property and Infrastr	ucture Fund	Inco	me Fund

### **Notes to the Financial Statements**

### 2 Risk (continued)

### (d) Credit exposure

The Scheme's maximum exposure to credit risk at balance date in relation to each class of recognised asset is the carrying amount of those assets as indicated in the Statements of Financial Position. The Funds have exposure of greater than 10% of net assets with any one counterparty (excluding PIE Funds which are detailed in Note 4(c)) as shown in the table below. Although less than 10%, the exposure to these same counterparties by the other Funds are also shown for completeness.

		New Ze	New Zealand Fund		Australian Fund		ional Fund	Property and Infrastructure Fund		Income Fund	
		2022	2021	2022	2021	2022	2021	2022	2021	2022	2021
ANZ Banking Group	Fair Value \$000	3,463	17,343	1,633	16,722	4,127	9,846	6,269	7,359	69,290	63,818
	% Net Assets	1.34%	7.31%	0.67%	9.54%	1.05%	3.14%	3.15%	5.26%	17.47%	20.04%

The Manager moderates credit risk through careful security selection and diversification, daily monitoring of the Scheme's market position and adherence to the Scheme's investment policy.

### 3 Investments at fair value through profit or loss

All investments are valued at fair value, with gains or losses recognised in the Statements of Comprehensive Income. The Scheme classifies its investments at fair value through profit or loss upon initial recognition as the Scheme manages its investments based on their fair value and in accordance with the investment strategy. Purchases and sales of investments are recognised on the trade date, the date on which the Scheme commits to purchase or sell the investment. Derivative instruments which are primarily forward foreign exchange contracts, futures and options contracts and interest rate swaps. The use of derivatives is governed by investment guidelines which are set by the Manager with the approval of the Supervisor. Where derivative instruments are used to economically hedge currency risk, hedge accounting is not applied and derivatives are accounted for on the same basis as those investments being hedged and are recognised at their fair value.

#### (c) Fair value hierarchy

The fair value of an investment is the price that would be received to sell an investment asset, or paid to transfer a financial liability, in an orderly transaction between market participants at measurement date. Investments recognised at fair value are categorised according to the level of judgment used in determining the fair value. There are three levels in the hierarchy of fair value measurements which are based on the observability of inputs to measure fair values:

Level 1: Inputs are the last traded price for identical securities in active markets that the Funds can access; except for when the last traded price falls outside the bid-ask spread for a particular stock, in which case the bid price is used.

Level 2: Where quoted market prices are not available, fair values have been estimated using present value or other valuation techniques using inputs that are available for the investment asset, either directly or indirectly.

Level 3: Fair values are estimated using significant inputs that are unobservable for the investment asset.

The table below categorises investment by fair value hierarchy:

The table below categorises investment by its raine more my	New Zealand Fund		Australian Fund		International Fund		Property and Infrastructure Fund		Income Fund	
	2022	2021	2022	2021	2022	2021	2022	2021	2022	2021
Fair value hierarchy	\$000	\$000	\$000	\$000	\$000	\$000	\$000	\$000	\$000	\$000
Level 1	253,981	223,716		167,379	386,548	310,635	191,914	134,878	-	7,382
Level 2	(203)		241,067	(1,336)	3,702	(3,779)	325	(1,431)	284,143	165,995
Level 3		-	-	2	-	1920	12	2	32,793	16,332
	253,778	223,716	241,067	166,043	390,250	306,856	192,239	133,447	316,936	189,709

Level 1 investments comprise active listed debt or equity securities.

Level 2 investments comprise of:

- (i) PIE funds: The PIE investments are not traded in an active market and their fair value is based primarily on the latest available redemption price at balance date of the respective PIE funds.
- (ii) Debt securities and swaps: Fair value for fixed interest investments that are either unlisted or listed but not active, and for swaps, is based on valuation techniques, such as benchmark models, net present value techniques, and comparison to similar instruments for which market observable prices exist and valuation models.
- (iii) Other derivative contracts: Fair value for forward foreign exchange rate and other derivative contracts is determined using valuation techniques based on spot exchange rates, forward points and prices supplied by reputable pricing vendors.

Level 3 investments: Fair value for unlisted investments, where no observable market data for significant inputs is available for the valuation techniques applied, or are based on valuation techniques that are determined by the Manager on a case by case basis and approved by the Supervisor. These comprise:

- (i) Debt securities: the Manager calculates a valuation based on the monthly pricing information supplied by reputable pricing vendors.
- (ii) Unlisted litigation securities: the Manager calculates a valuation based on the present value of the future distributions that are estimated to be received, after applying a 10% discount rate.

During the year there were no transfers of investments between levels in the fair value hierarchy.

#### 4 Related parties

### (a) Transactions and balances with related parties

The Manager of the Scheme is Fisher Funds Management Limited and the Supervisor is Trustees Executors Limited. The Manager and Trustees Executors Limited are related parties of the Scheme by virtue of the Governing Document, giving the Manager and Supervisor, either directly or indirectly, the authority and responsibility for planning, directing and controlling the activities of the Scheme.

The Manager is responsible for managing the assets of the Scheme and fund administration, and is entitled to a management fee of 1% (plus GST) per annum ("p.a.") of the gross asset value ("GAV") of the New Zealand Fund, Australian Fund, International Fund and the Property and Infrastructure Fund. The management fee is 0.75% (plus GST) of the GAV of the Income Fund. Management fees are calculated daily and payable monthly.

The Manager is also entitled to be paid a performance fee where returns to the unit holders exceed the Funds' benchmark ("Benchmark Return") capped at 2% p.a. of the average net asset value of the Fund. The Benchmark Return is measured as the percentage change in the NZ Official Cash Rate ("OCR") plus 5% for the New Zealand Fund, Australian Fund and International Fund and plus 3% for the Property and Infrastructure Fund. No performance fees are earned or payable for the Income Fund.

A high water mark applies to ensure management is only rewarded for investment performance once. Where the high water mark is higher than the performance period end unit price, no performance fee is payable. Where the high water mark is lower than the performance period end unit price the fee is the lesser of:

10% (plus GST) of the return in excess of the Benchmark Return or

10% (plus GST) of the return achieved above the high water mark.

The performance fee is calculated for the period 1 July to 30 June. Therefore, the actual amount payable at the end of the current performance period may be greater or less than the performance fees accrued at 31 March. The performance fee is accrued daily and is payable within three days of 30 June.

Income earned or fees incurred by the Funds during the period, and amounts receivable from or payable to the Manager and Supervisor at balance date, are detailed below:

### (b) Investment transactions with related entities

During the year various investments were bought or sold by the Scheme where the counterparty was another Fund also managed by the Manager. All such transactions were carried out in the ordinary course of the Scheme's activities and were transacted at the fair value of the underlying investment bought or sold (i.e. on an arm's-length basis). No brokerage fees were charged.

	New Zealand Fund		Australian Fund		International Fund		Property and Infrastructure Fund		Income Fund

<sup>(1)</sup> These purchases and sales of investments exclude applications and withdrawals in Fisher Institutional Funds.

On 25 May 2021, there was an in-specie transfer of all listed equities held by the Fisher Funds Premium Australian Fund for units in the newly established Fisher Institutional Australian Equity Fund to improve operational efficiency. The fair value of these listed equities at the time of transfer was \$179,848,665. These amounts are included in the total sales of investments from related entities under the Australian Fund.

### **Notes to the Financial Statements**

### 4 Related parties (continued)

### (c) Investments in related entities

The Scheme indirectly holds investments through other funds managed by the Manager. The Scheme has been deemed to meet the definition of an investment entity and accordingly the Scheme's investments in other PIE funds managed by the Manager are not consolidated, instead measured at fair value through profit and loss, if any. The Scheme's investments in other funds managed by the Manager (PIE Funds per Note 3) are as follows:

		. 이 기급 - 1 그는											
		New Zealand Fund		Australian Fund		International Fund		Property and Infrastructure Fund		Income Fund			
		2022	2021	2022	2021	2022	2021	2022	2021	2022	2021		
		\$000	\$000	\$000	\$000	\$000	\$000	\$000	\$000	\$000	\$000		
	Fisher Institutional Australian Equity Fund	-	(190)	241,068	:*	-	¥	-	(2)	<u> =</u>	7-		
5	Interest income												
	Interest on investment assets at amortised cost	50	41	22	22	54	39	43	26	1,089	1,429		
	Interest on investment assets at fair value through profit or loss	- 8		•			-			8,179	5,235		
		50	41	22	22	54	39	43	26	9,268	6,664		

Interest income on investment assets at amortised cost is recognised in the Statements of Comprehensive Income as interest accrues using the effective interest rate method. All other interest income is recognised at fair value through profit or loss.

### 6 Capital commitments and contingent liabilities

There were no capital commitments or contingent liabilities as at 31 March 2022 (31 March 2021: Nil).

### 7 Subsequent events

As at the date of signing, the underlying funds covered in these financial statements have experienced movement in unit prices, in line with recent market volatility. The equity-based funds [New Zealand Fund, Australian Fund, International Fund and Property and Infrastructure Fund] have experienced a higher level of volatility. For recent unit price and fund performance, please visit <a href="www.fisherfunds.co.nz/unit-prices-and-performance/unit-prices">www.fisherfunds.co.nz/unit-prices-and-performance/unit-prices</a> (note, this information is unaudited).

# Independent Auditor's Report

To the members of:

- Fisher Funds Premium New Zealand Fund
- Fisher Funds Premium Australian Fund
- Fisher Funds Premium International Fund
- Fisher Funds Premium Property and Infrastructure Fund
- Fisher Funds Premium Income Fund

Collectively "Fisher Funds Premium Service Scheme" (the "funds and scheme").

### Report on the audit of the financial statements

### **Opinion**

In our opinion, the financial statements of Fisher Funds Premium Service Scheme (the 'funds and scheme') on pages 2 to 13:

- present fairly in all material respects the funds' and scheme's financial position as at 31 March 2022 and its financial performance and cash flows for the year ended on that date; and
- ii. in accordance with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

We have audited the accompanying financial statements which comprise:

- the statements of financial position as at 31 March 2022;
- the statements of changes in unit holders' funds, comprehensive income and cash flows statements for the year then ended; and
- notes, including a summary of significant accounting policies and other explanatory information.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (New Zealand) ('ISAs (NZ)'). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the scheme in accordance with Professional and Ethical Standard 1 International Code of Ethics for Assurance Practitioners (Including International Independence Standards) (New Zealand) issued by the New Zealand Auditing and Assurance Standards Board and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Our responsibilities under ISAs (NZ) are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

Our firm has also undertaken supervisor reporting in line with our obligations under Section 198 and 199 of the Financial Markets Conduct Act 2013 ("FMC Act 2013"). Subject to certain restrictions, partners and employees of our firm may also deal with the funds and scheme on normal terms within the ordinary course of trading activities of the business of the funds and scheme. These matters have not impaired our independence as auditor of the funds and scheme. The firm has no other relationship with, or interest in, the funds and scheme.

### **Materiality**

The scope of our audit was influenced by our application of materiality. Materiality helped us to determine the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and on the financial statements as a whole. The materiality for the financial statements as a whole was set at 0.75% of the total assets of each fund and the scheme. We chose the benchmark because, in our view, this is a key measure of the funds' and scheme's performance.

### **Key audit matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements in the current period. We summarise below those matters and our key audit procedures to address those matters in order that the members as a body may better understand the process by which we arrived at our audit opinion. Our procedures were undertaken in the context of and solely for the purpose of our statutory audit opinion on the financial statements as a whole and we do not express discrete opinions on separate elements of the financial statements.

### The key audit matter

### How the matter was addressed in our audit

### **Existence and valuation of investments**

Refer to Note 3 to the Financial Report.

Investments are the funds' and scheme's main assets, and existence and valuation of those investments is the most important aspect of preparing the financial statements. As described in the financial statements, the funds' and scheme's investments include call accounts, term deposits, listed equities and bonds, fund-to-fund investments and simple derivatives held by one custodian. These factors reduce the risk and complexity of verifying investment existence and valuation.

COVID-19 and geo-political events in Europe putting strain on global supply chains, as well as rising interest rates, has meant that greater volatility exists around the valuation of investments and the fair value hierarchy level attributed to each. This required some additional judgement in these areas.

Our audit procedures included:

- documenting and understanding the processes in place to record investment transactions and to value the portfolio. This included evaluating the control environment in place at the custodian, investment accounting and registry service provider by obtaining and reading the service organisation reports issued by an independent auditor on the design and operation of those controls throughout the period;
- agreeing investment holdings to the confirmations received from banks and the custodian;
- agreeing the valuation of listed equities, bonds and fund tofund investments to independent third party pricing sources:
- for derivatives, engaging our valuation specialists to check the reasonableness of the inputs to information available from independent third party pricing sources; and
- checking the accuracy of fair value levels as disclosed in the financial statements.

We did not identify any material differences from our procedures.

### Other information

The Manager, on behalf of the funds and scheme, is responsible for the other information included in the funds' and scheme's Annual Report. Our opinion on the financial statements does not cover any other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Use of this independent auditor's report

This independent auditor's report is made solely to the members as a body. Our audit work has been undertaken so that we might state to the members those matters we are required to state to them in the independent auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the members as a body for our audit work, this independent auditor's report, or any of the opinions we have formed.

### Responsibilities of the Manager for the financial statements

The Manager, on behalf of the scheme, are responsible for:

- the preparation and fair presentation of the financial statements in accordance with generally accepted accounting practice in New Zealand (being New Zealand Equivalents to International Financial Reporting Standards) and International Financial Reporting Standards;
- implementing necessary internal control to enable the preparation of a set of financial statements that is fairly presented and free from material misstatement, whether due to fraud or error; and
- assessing the ability to continue as a going concern. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate or to cease operations or have no realistic alternative but to do so.

## × Auditor's responsibilities for the audit of the financial statements

Our objective is:

- to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
- to issue an independent auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs NZ will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of these financial statements is located at the External Reporting Board (XRB) website at:

https://www.xrb.govt.nz/standards/assurance-standards/auditors-responsibilities/audit-report-2/

This description forms part of our independent auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Nicholas Moss.
